

Daniah Mohammed Zaheda

Ain Sara Street | Hebron, Palestine

+972 59-736-4071 | daniahzaheda@gmail.com

Summary

A fourth-year Computer Systems Engineering student at Palestine Polytechnic University with a strong foundation in C++, algorithms, data structures, and object-oriented programming. Experienced in teaching programming and problem-solving. Currently expanding skills in web development (HTML, CSS, JavaScript, React, Tailwind). Passionate about frontend development, problem-solving, and continuous learning.

Experience

- July 2023 – Current *C++ Problem Solving Coach at PPU Code Academy*
 - taught C++ programming and problem-solving skills to college students. [Certificate](#)
- Jun 2025 – Aug 2025 *Intern – Al Zahidi Software Company*
 - Trained in SEO fundamentals, improving understanding of search engine optimization techniques.
 - Learned principles of UI/UX design, focusing on usability and user-centered design.
 - Practiced software testing (manual and automation) to identify and document bugs.
 - Studied the Software Development Life Cycle (SDLC) and its phases in real projects.
- January 2019 – August 2021 *Radio Presentation on Radio Alhuriya*
 - Presenter for “Alhuriya Children” program, designed for children to engage with the materials within education as well as variety of other themes.

Skills

- **Programming Languages:** C++, Java, HTML, CSS, JavaScript, Verilog HDL, C#
- **Concepts:** Object-Oriented Programming (OOP), Algorithms, Data Structures, Database Management
- **Databases:** SQL Server, Oracle SQL
- **Software Tools:** Visual Studio Code, Visual Studio, NetBeans, SQL Server Management Studio (SSMS), Node.js
- **Frameworks/Libraries:** Bootstrap, Tailwind (currently learning), React, ASP.NET MVC, Entity Framework (EF)
- **Productivity Tools:** Notion
- **Testing & Automation:** Selenium (Ruby)
- **Operating systems:** Windows, Linux
- **Version control:** Git, GitHub
- **Others:** Radio presentation

Education

- 2022 to Current *Bachelor of Computer Systems Engineering*
 - Palestine Polytechnic University, Hebron
- 2021 to 2022 *General Secondary Education Certificate (Tawjihi) Scientific Stream GPA: 95.4%*
 - Hebron

Languages

- **Arabic** – Native (Speaking, Reading, Writing)
- **English** – Fluent (Speaking, Reading, Writing)

Courses & Certification

Courses

- Sep 2023 to Mar 2024 *Knowledge Academy*
 - Online / [CS & Problem Solving certificate](#)
- Mar 2024 to Current *Knowledge Academy*
 - Online / Full Stack [Front End Development](#)

Workshops & Training

- LinkedIn Workshop, IEEE Student Branch
- Git/GitHub Workshop, PPU Code Academy
- Competitive Programming Training , PPU Code Academy
- Tailwind Workshop, Knowledge Academy

Projects

University Projects

- **C++ Algorithms Project:** Executed a project focused on comparing the performance of Insertion Sort, Merge Sort, and Quick Sort algorithms, evaluating their efficiency in various scenarios. [Project Link](#)
- **Digital Systems Lab:** Developed a digital stopwatch using circuit maker, BCD counters and 7-segment displays as well as control buttons (start/stop and reset). The circuit has a clock pulse generator that keeps time and displays it correctly. [Project Link](#)
- **MIPS Pipelining Simulation:** Simulated MIPS architecture with pipelining on MARS simulator. Solved pipeline hazard problems (control hazards).

Courses projects

- **Daily Tools Project** A web application built with HTML, CSS, and JavaScript that displays daily prayer times, weather updates, and currency conversion. Its design incorporates APIs that automatically update the weather conditions and the prayer times in real time. [Project Link](#)
- **Dshop** A frontend e-commerce web application built with React, Bootstrap, and CSS. It integrates a ready-made API to fetch product data dynamically and implements features like user account creation and login, product listing, shopping cart, and checkout process. Yup is used for form validation, and the design focuses on being responsive and user-friendly.
- Implemented and designed a webpage in HTML and CSS for training purposes. [Project Link](#)
